

Article retraction notice:

Hoang, T. (2007). The relations between parenting and adolescent motivation. International Journal of Whole Schooling, 3(2), 1-21.

June 16, 2011

The International Journal of Whole Schooling (IJWS) retracts the following article:
Hoang, T. (2007). The relations between parenting and adolescent motivation.
International Journal of Whole Schooling, 3(2), 1-21.

This retraction has been made by the editorial and management team of the International Journal of Whole Schooling because it has recently been discovered that this article has been substantially plagiarized, at times verbatim, from the following work:

Gonzalez, A., & Wolters, C. (2006). The relation between perceived parenting practices and achievement motivation in mathematics. *Journal of Research in Childhood Education*, 21(2), 203-217.

At the time of publication and up until this point the IJWS has been unaware that the Hoang (2007) article was not, in large part, the original work of the author. The IJWS wishes to recognize the article by Dr. Wolters and Dr. Gonzales as being the legitimate source of this work, apologize for any distress this circumstance may have caused, and thank them for bringing this matter to our attention.
